Visual Development Portafolio 2021

Scavengers

Long has it been since the world was covered in a vast desert. Humanity has been relegated to the small and few oases remainig in the world. Life is harsh and difficult enough, however, there are those who venture into the ancient and forgotten cities to get resources, technology or even some lost knowledge to what happened in their world.

Jad is one of the greatest scavengers of his tribe. Armed with his rifle, he ventures into the cities to supply his people, yet he has a bigger objective, to find what happened to the planet and, if possible, reverse it.

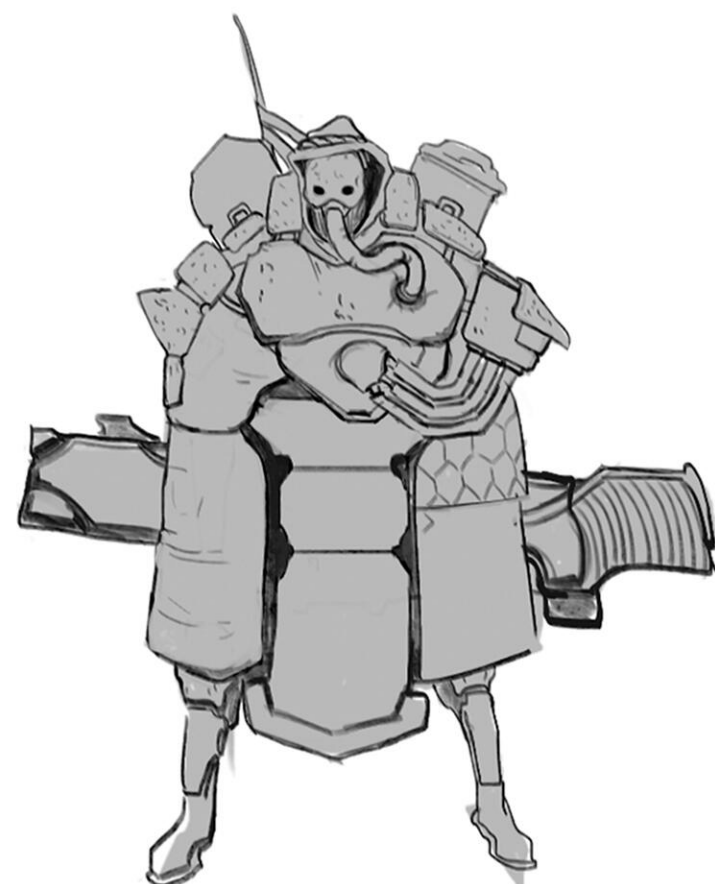

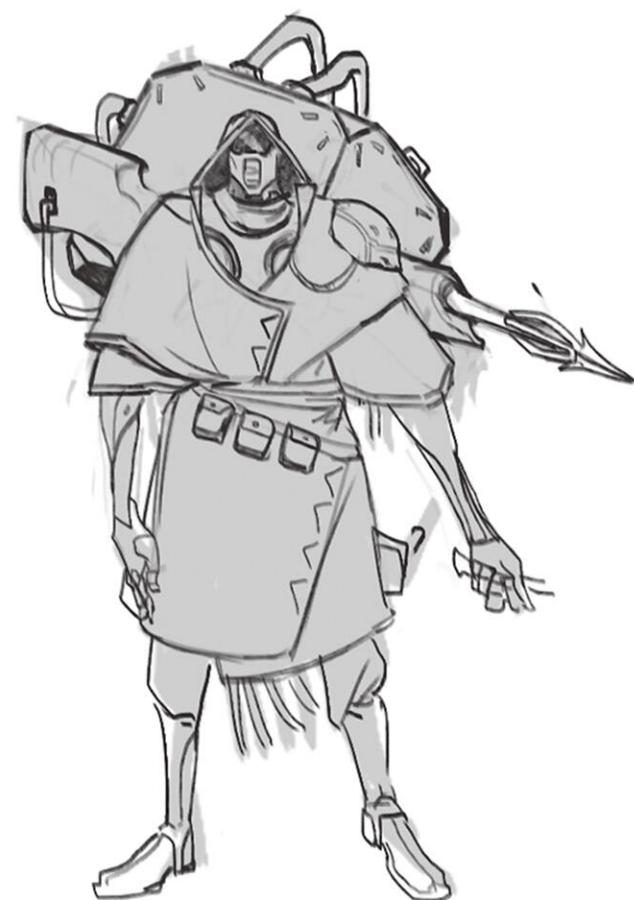

PROPS

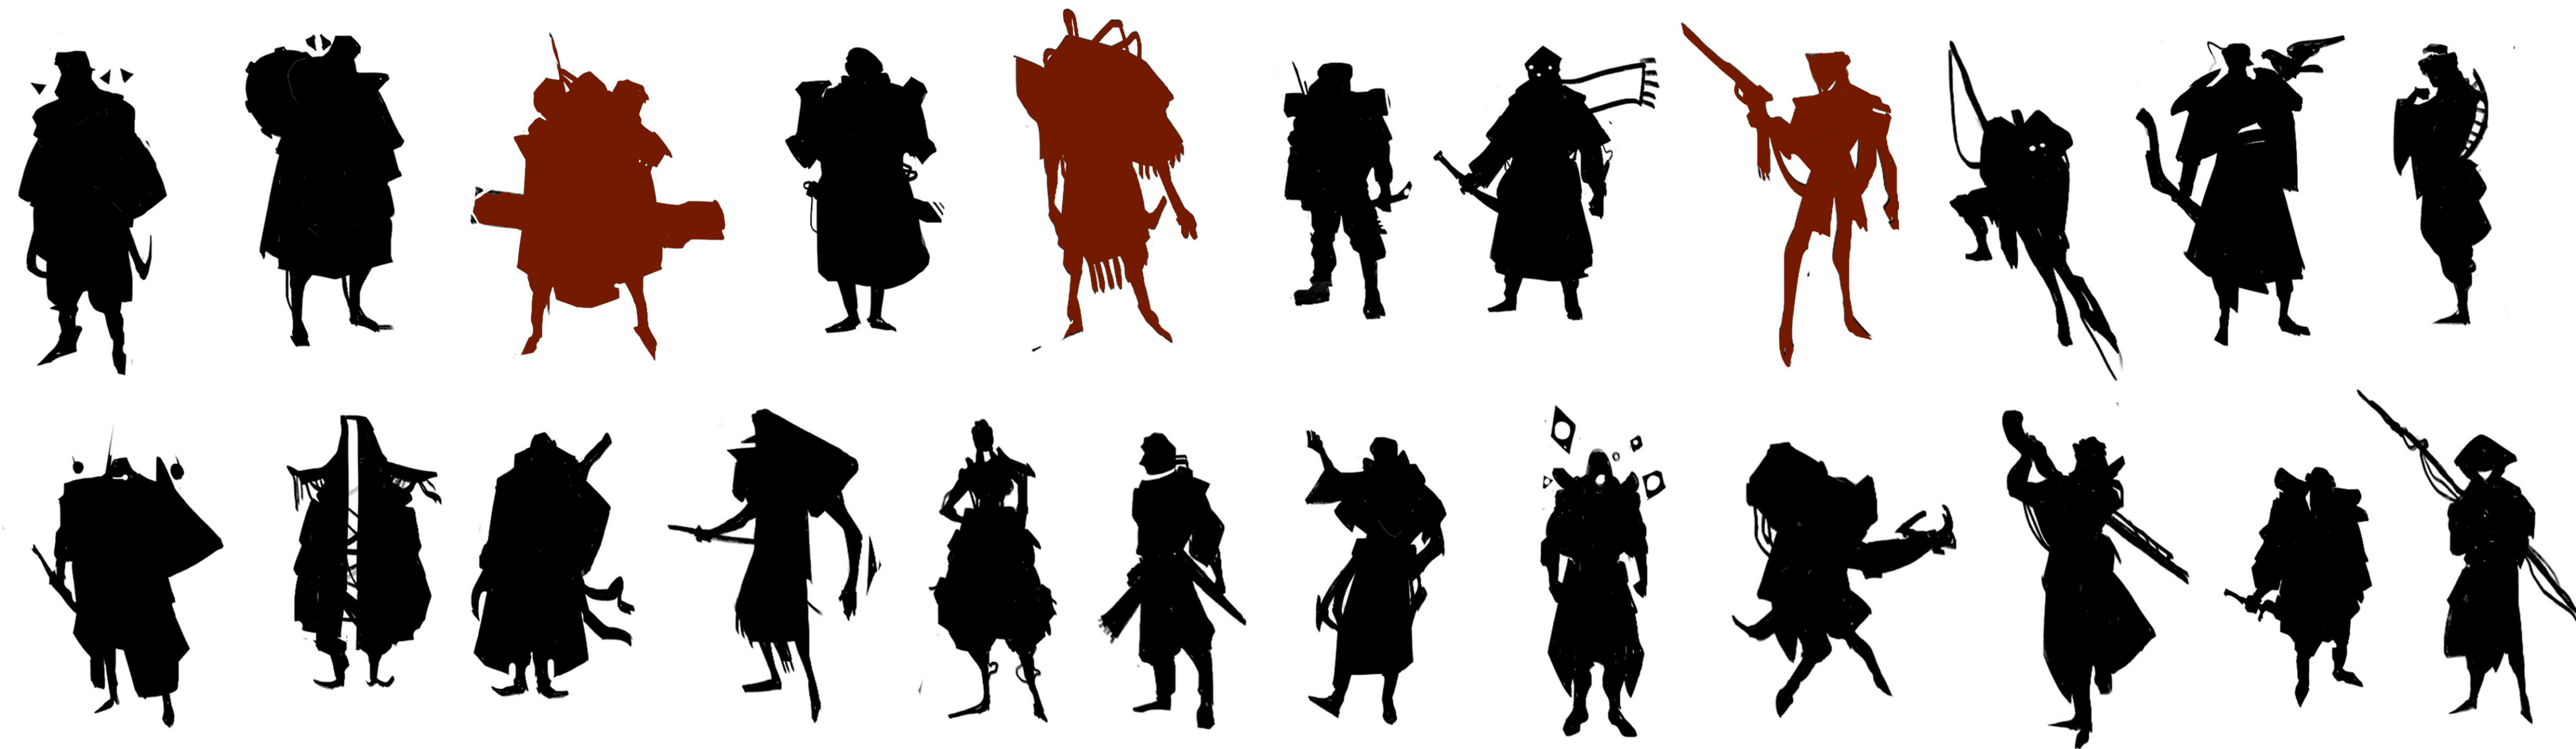

Jad's weapon, the Silent Eagle, is a sniper rifle made from different scrap parts found during his scavenging trips. This rifle and his family khanjar knife, are two of his most important possessions.

Jad Exploration

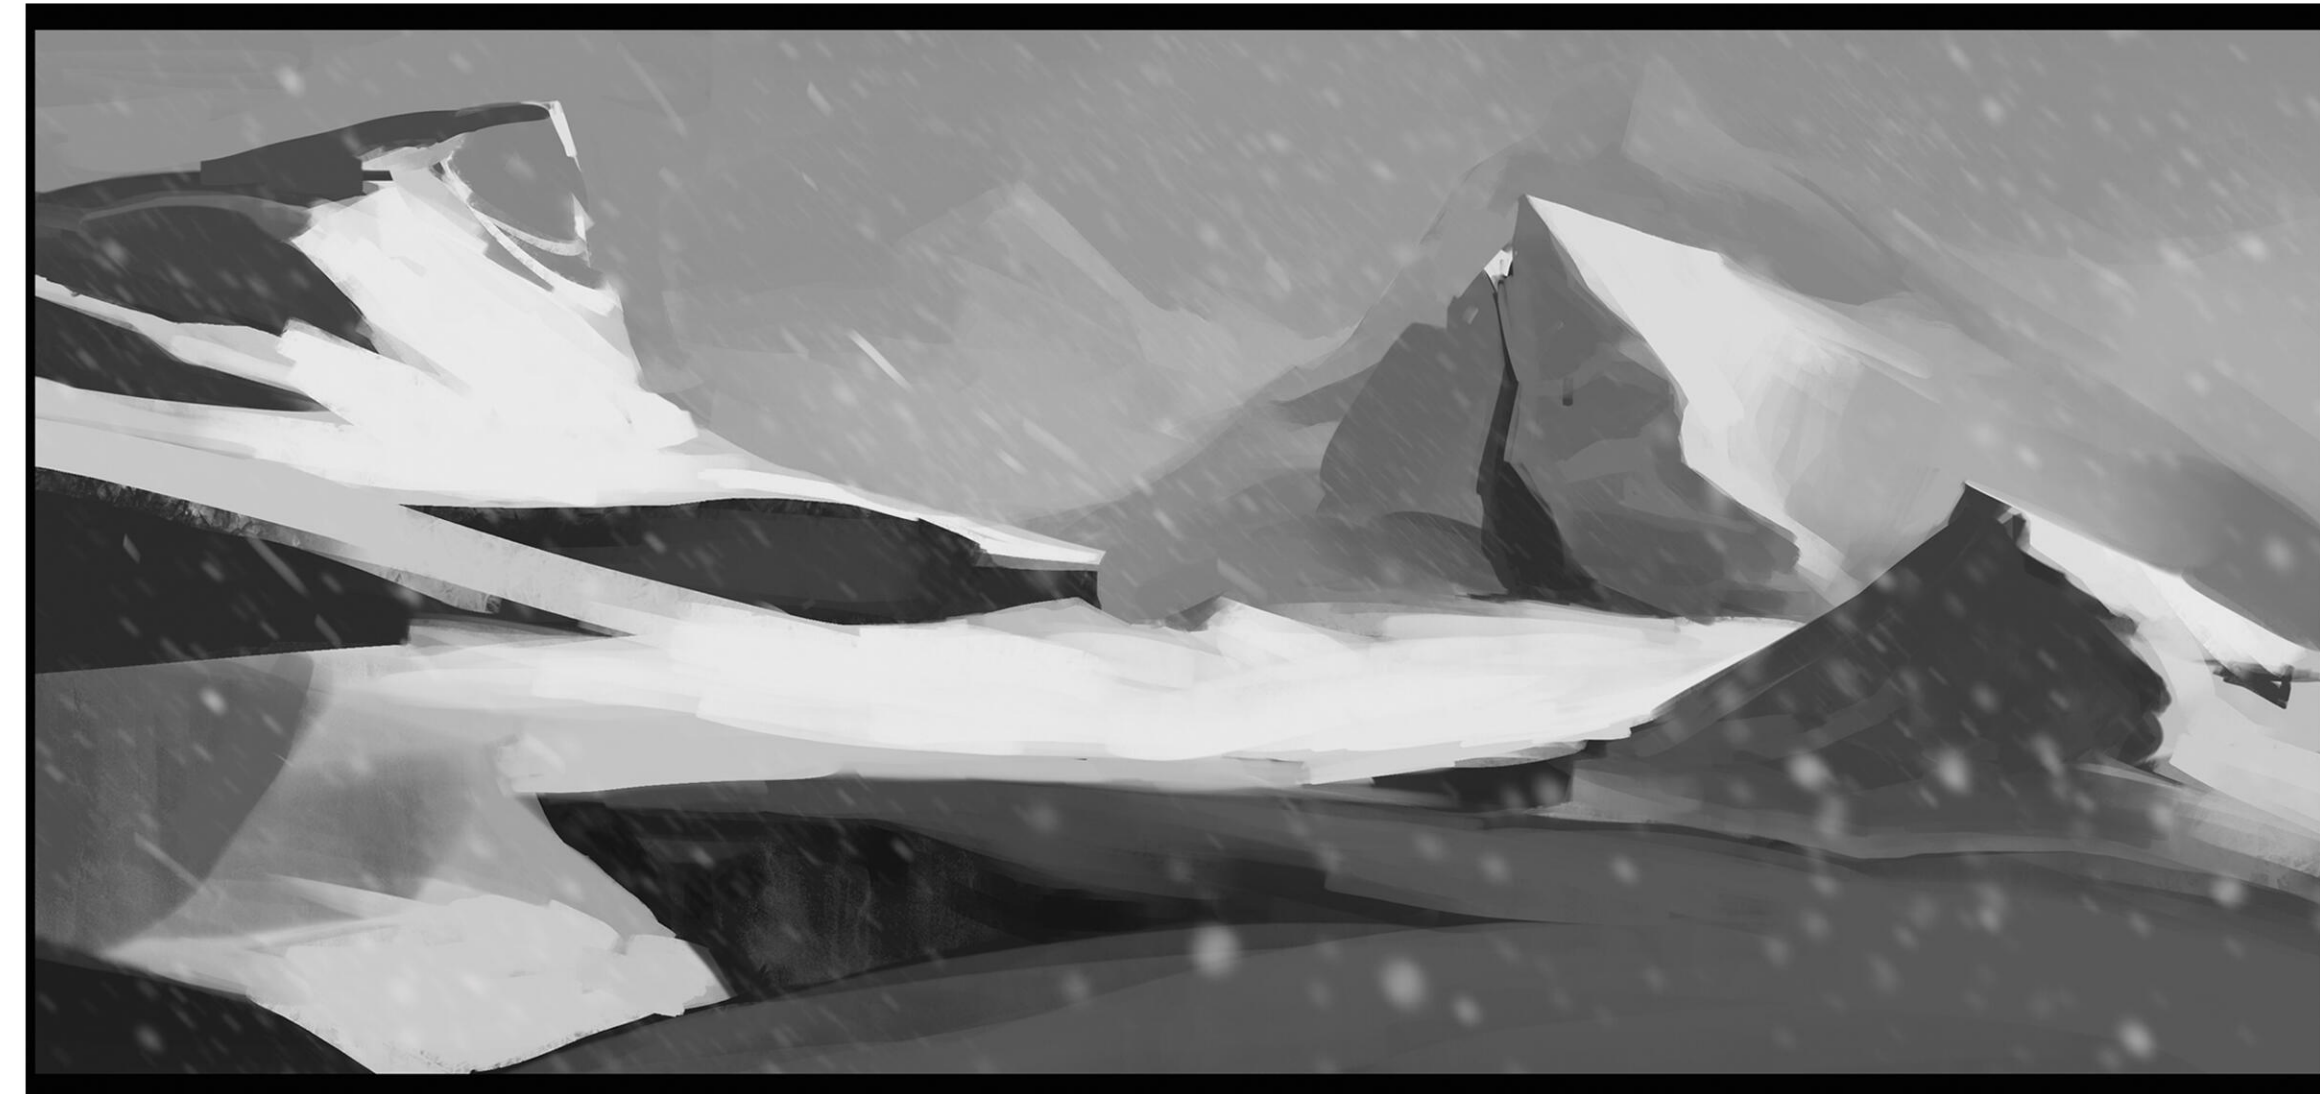

Jad Exploration

Far Away Project

Mysterious creatures have been spotted in a northern region of the country and a group of people have been dispatched to investigate this discovery that could bring drastic changes to the current scientific scene.

The place where the project is developed consist of 3 main biomes, the grasslands where the first creatures were sighted, a dense forest with enourmous trees and finally an icy mountain which will be the final destination of the main expedition party.

CHARACTERS

Clara:

The protagonist of the project is the young niece of a famous biologist, an energetic and dreamy girl ready for adventure.

Fausto:

A famous retired biologist who longs to relive his best days. He joined the main expedition because of his experience and knowledge, but is not liked to much due to his stubbornness.

Andrik :

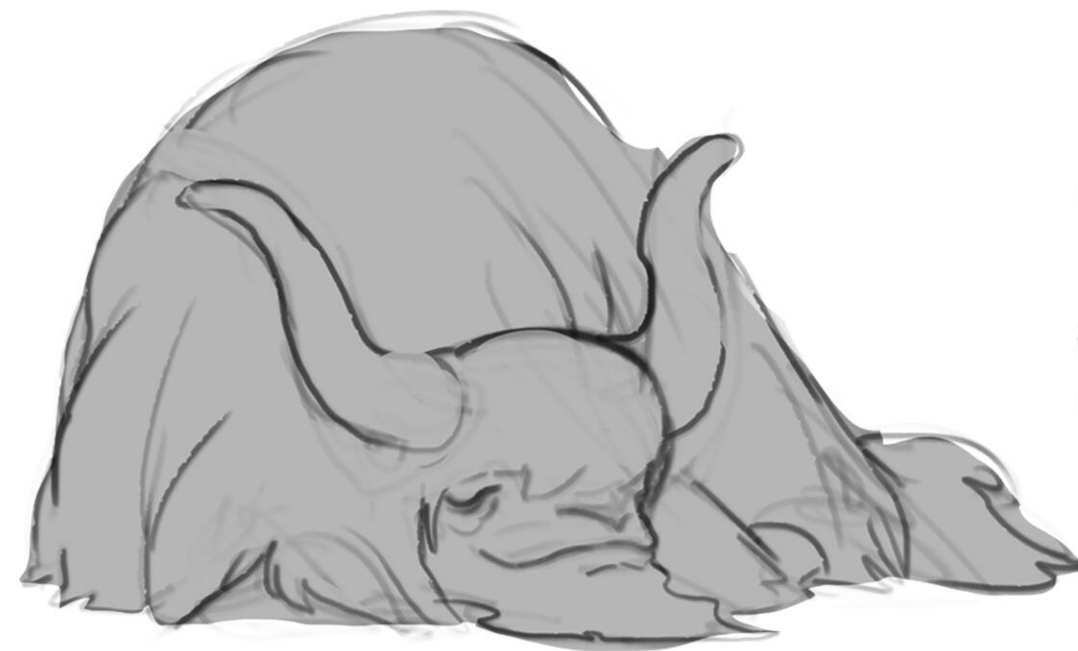

A young upcoming researcher, that has a hidden dark side to him. Equipped with the best technology, he will join the expedition to fulfill his evil plans.

THE BILOX

These bison-like creatures descended from the mountains and were found by the local shepherds. Covered in fur and reaching almost 2 meters in height, this big animals althought generally pacific, can become very dangerous when enraged.

THE MEGALOBAT

The second creature the protagonists will encounter.

This animal will eat whoever enters the forest or ventures further up the mountains. It is the unrivaled hunter of this land.
