Medusa

Percy Jackson is a 12 year old who can't quite seem to fit in anywhere.

When he finds out about the world of Greek gods, he reluctantly goes on adventures with a new identity, as a son of Poseidon

Annabeth is a determined individual with a knack for fighting. Grover is a smart and sweet protector of Percy.

Together, the trio go on a quest to save the world.

Manipulative and vindictive,
Medusa is a powerful individual.

She lures unsuspecting visitors
to her lair and turns them to stone...
which she then sells
for an affordable price.

Percy lives at Poseidon's Cabin at Camp Half-Blood. It's a lonely place as he is the only known living son of Poseidon.

Poseidon's Cabin Interior

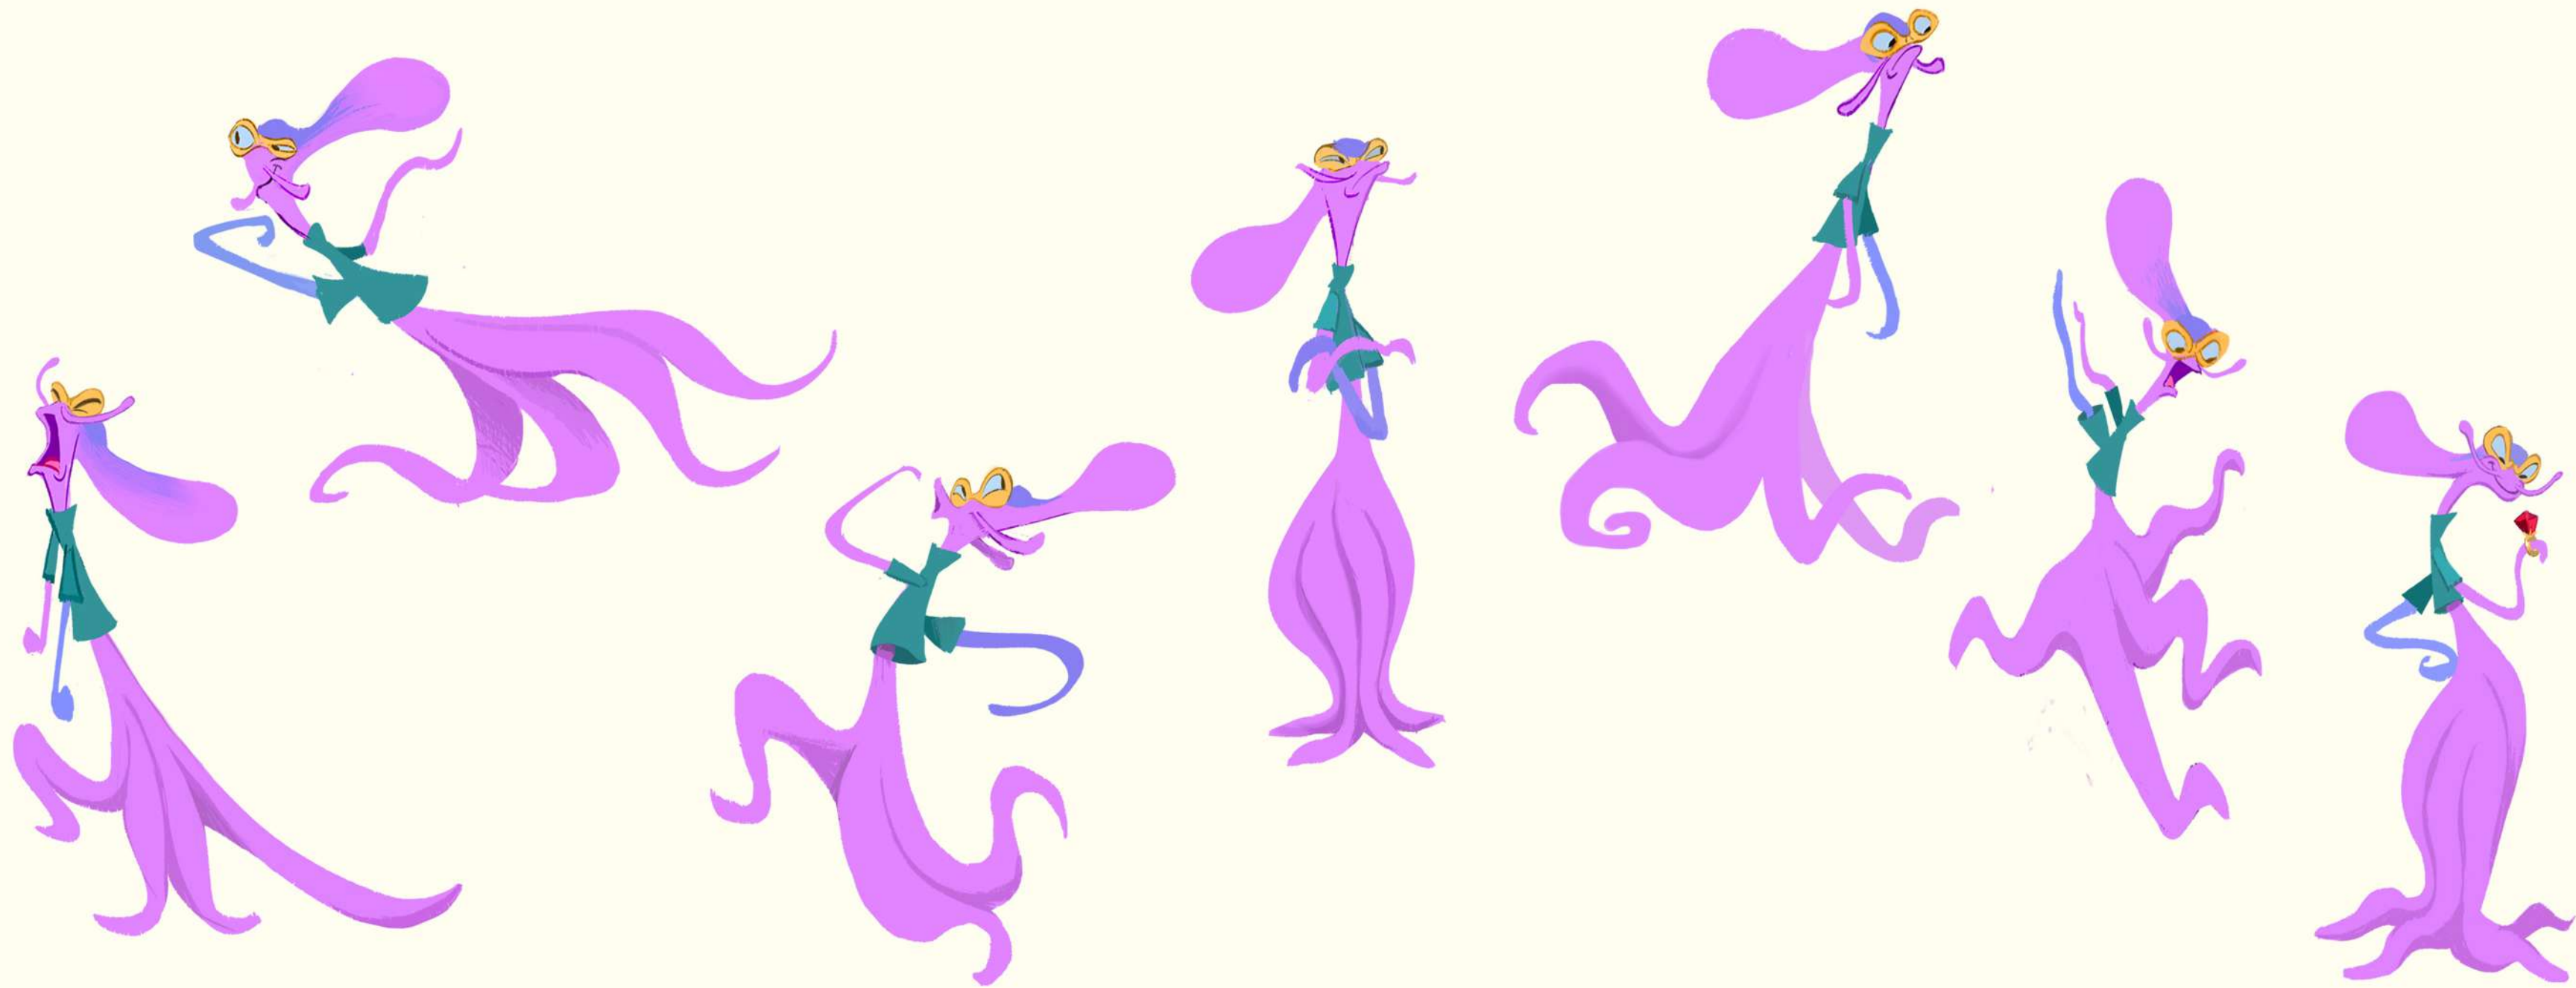

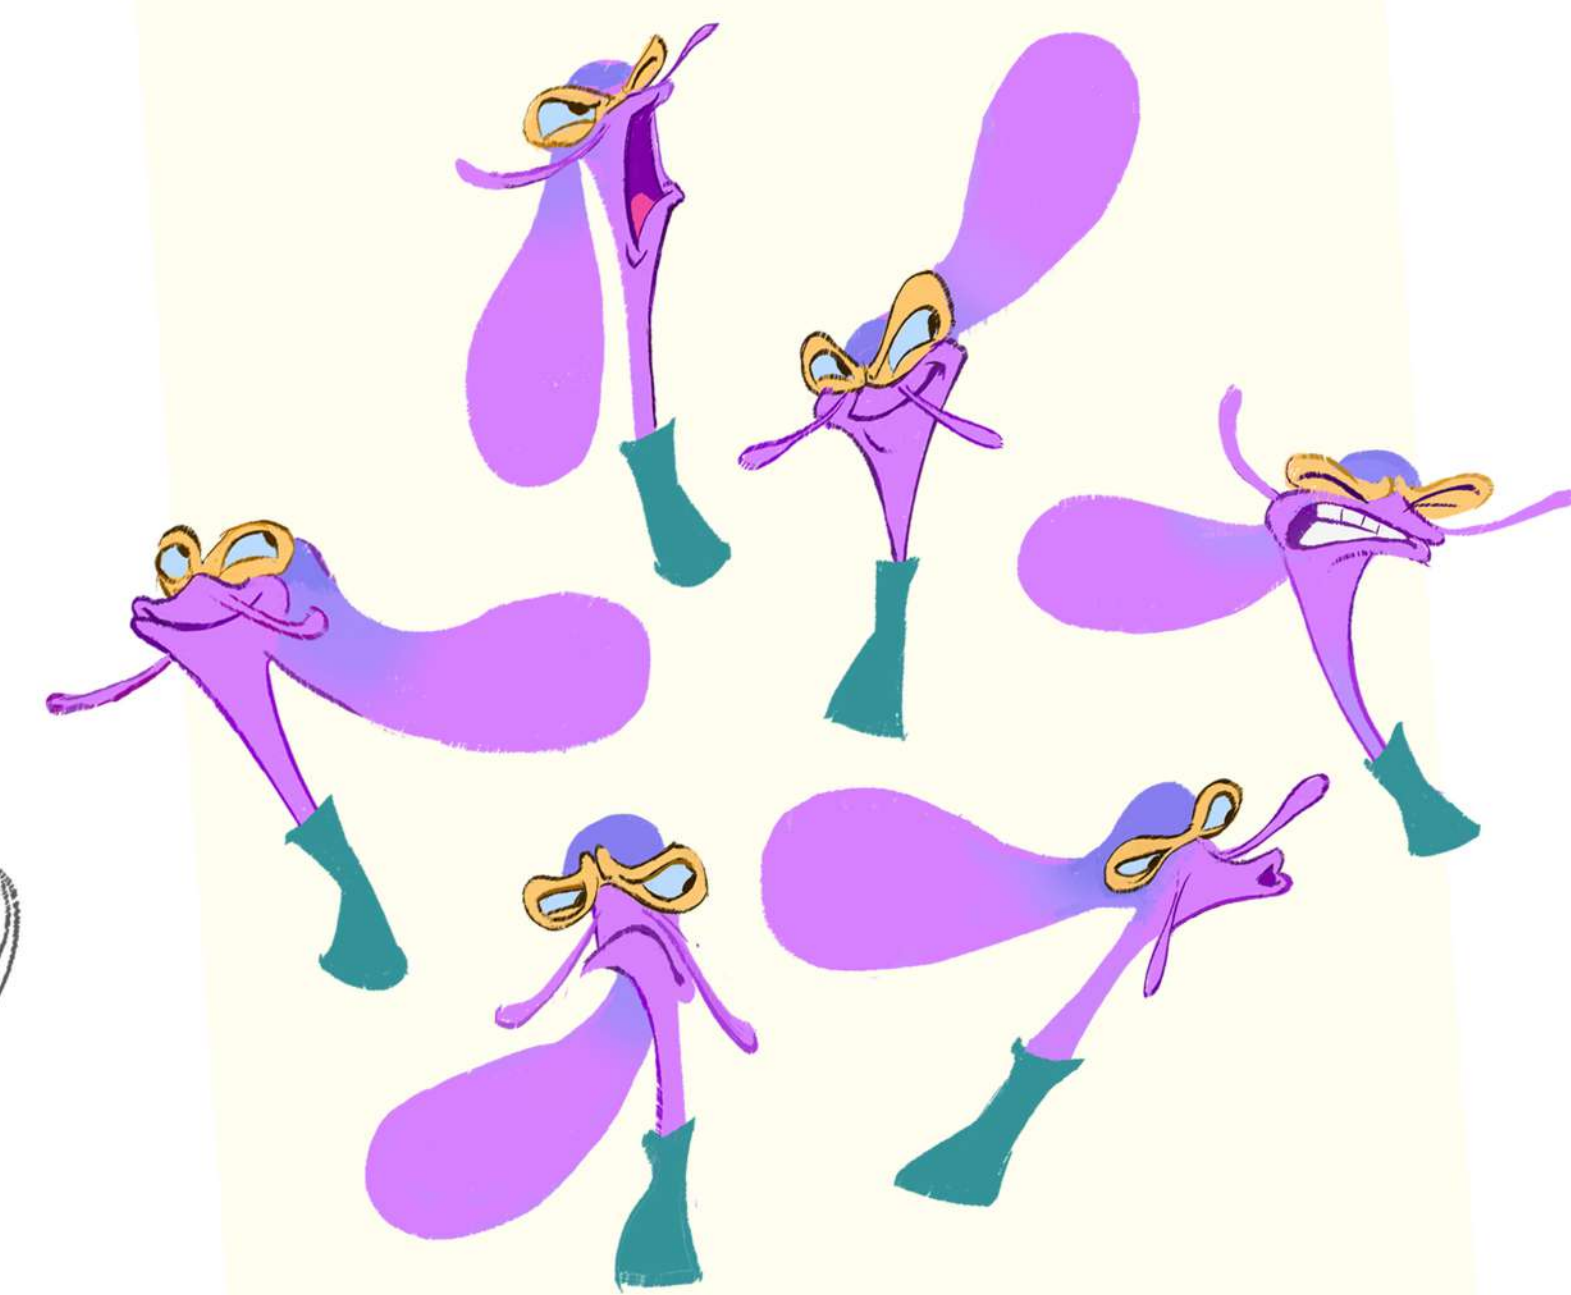

Alfred's

FINAL HEIST

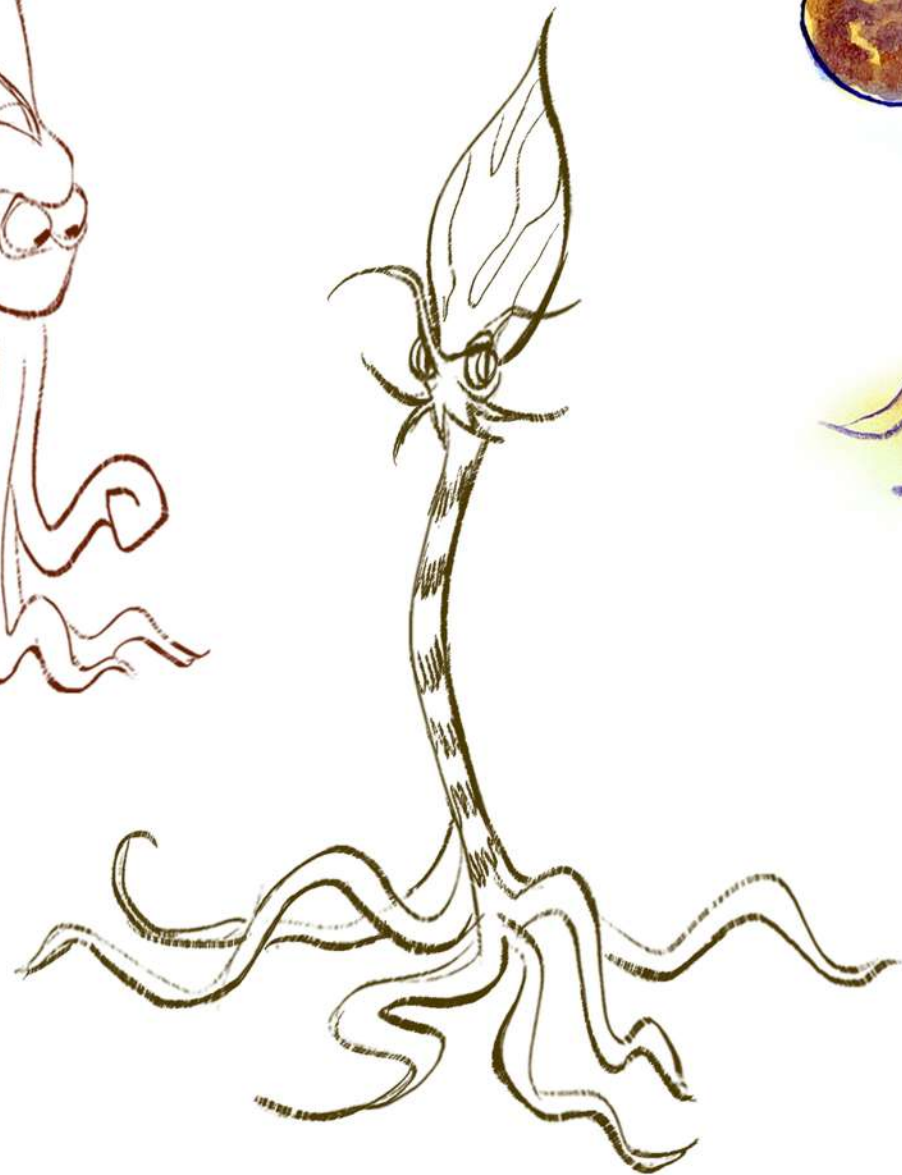

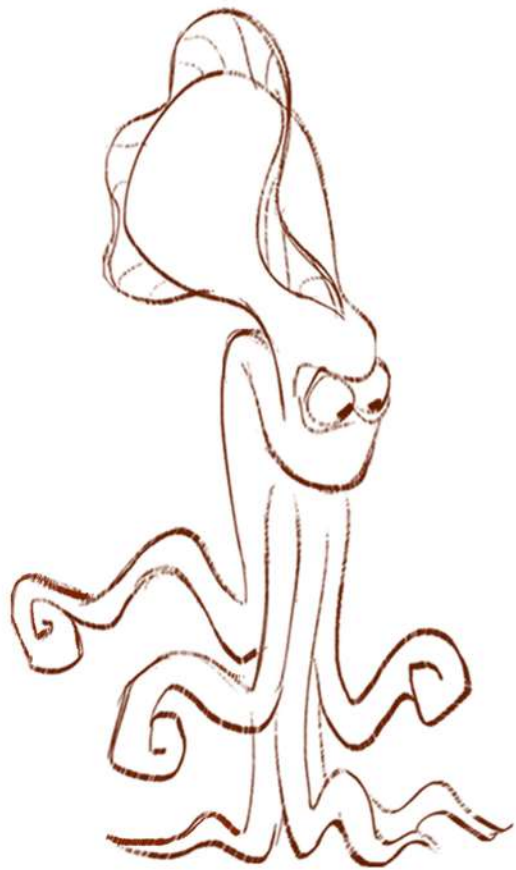

Alfred the thieving octopus
and his crab sidekick conduct
the ultimate heist...
that is, until a baby causes
a rift in their partnership.

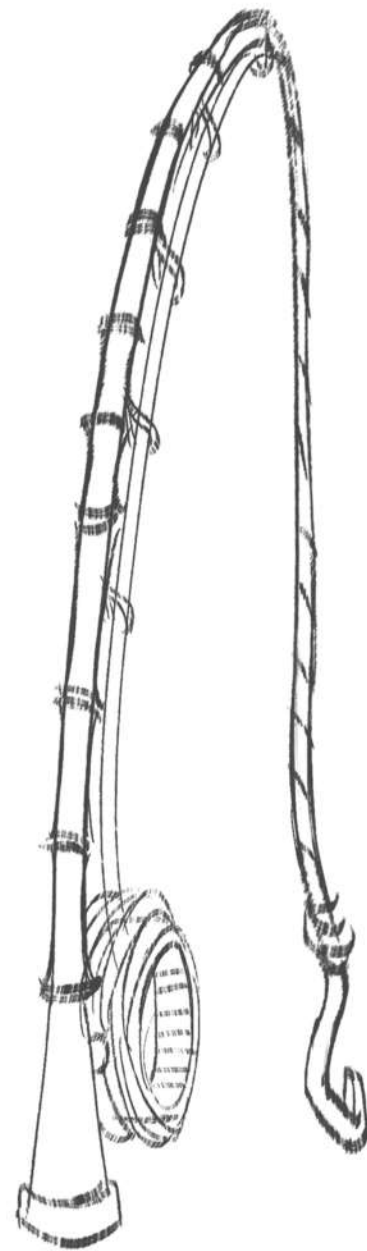

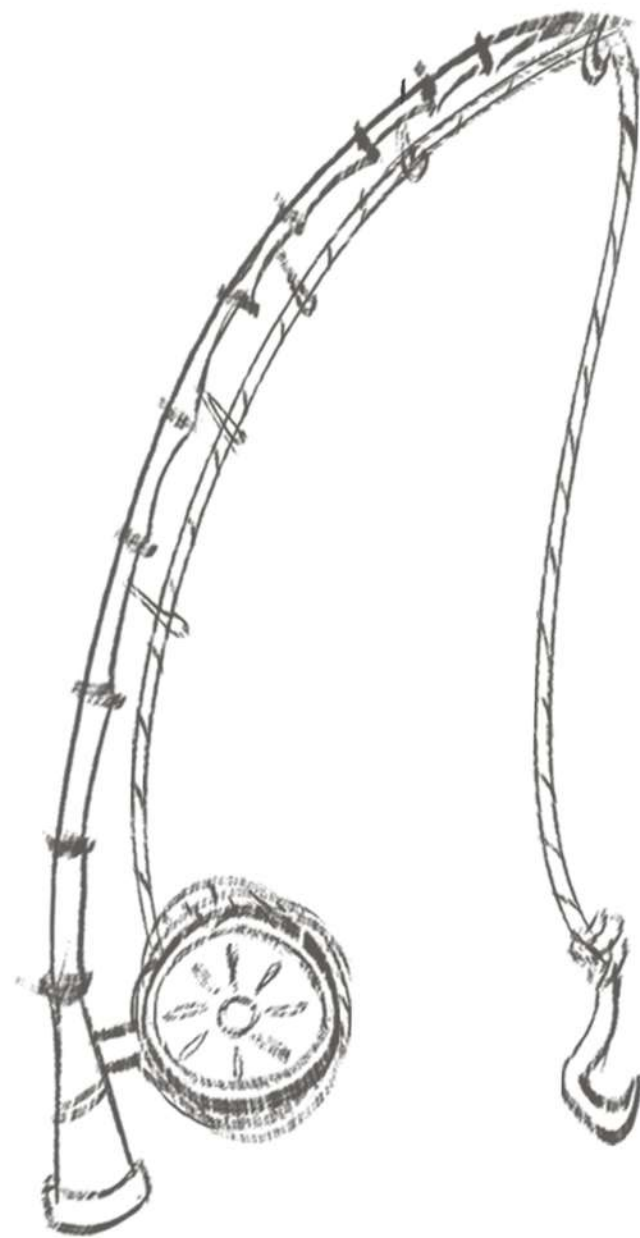

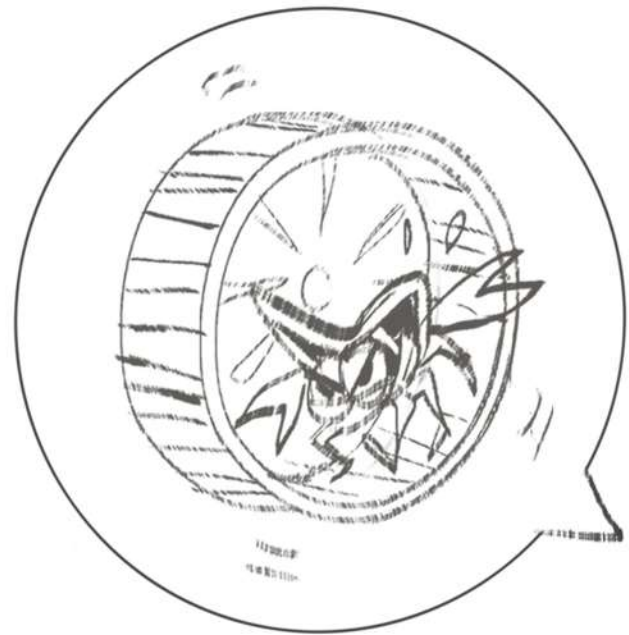

I explored many different versions of Alfred, from a mimic octopus to a curled octopus.

Bee PIRATE CREW

A eclectic crew of pirates!

With a yellow jacket wasp as **Cap'n**,
a bumble bee as **Chef**,
a honey bee as **First Mate**,
a hornet as the **Assassin**,
and a hoverfly as the **Navigator**.

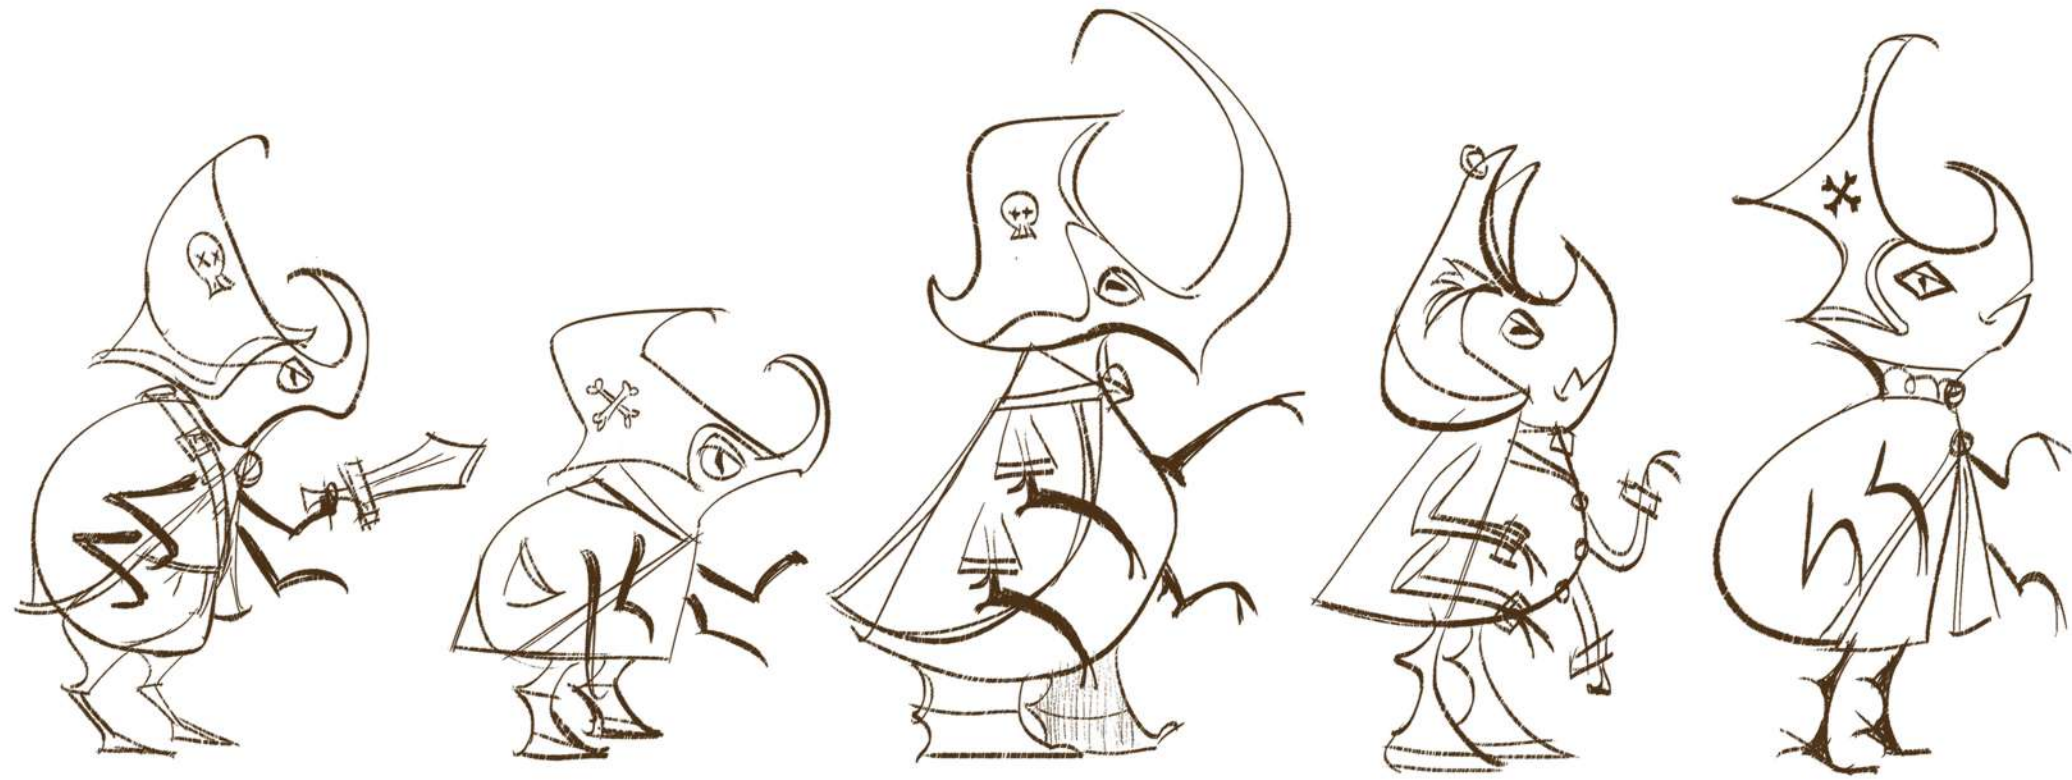

The Assassin moves elegantly,
very much inspired by the
flow of a dancer's movements.

Terrified of being discovered as
a hoverfly with no sting,
the Navigator spends her time
at the Narcissitic Captain's beck and call.

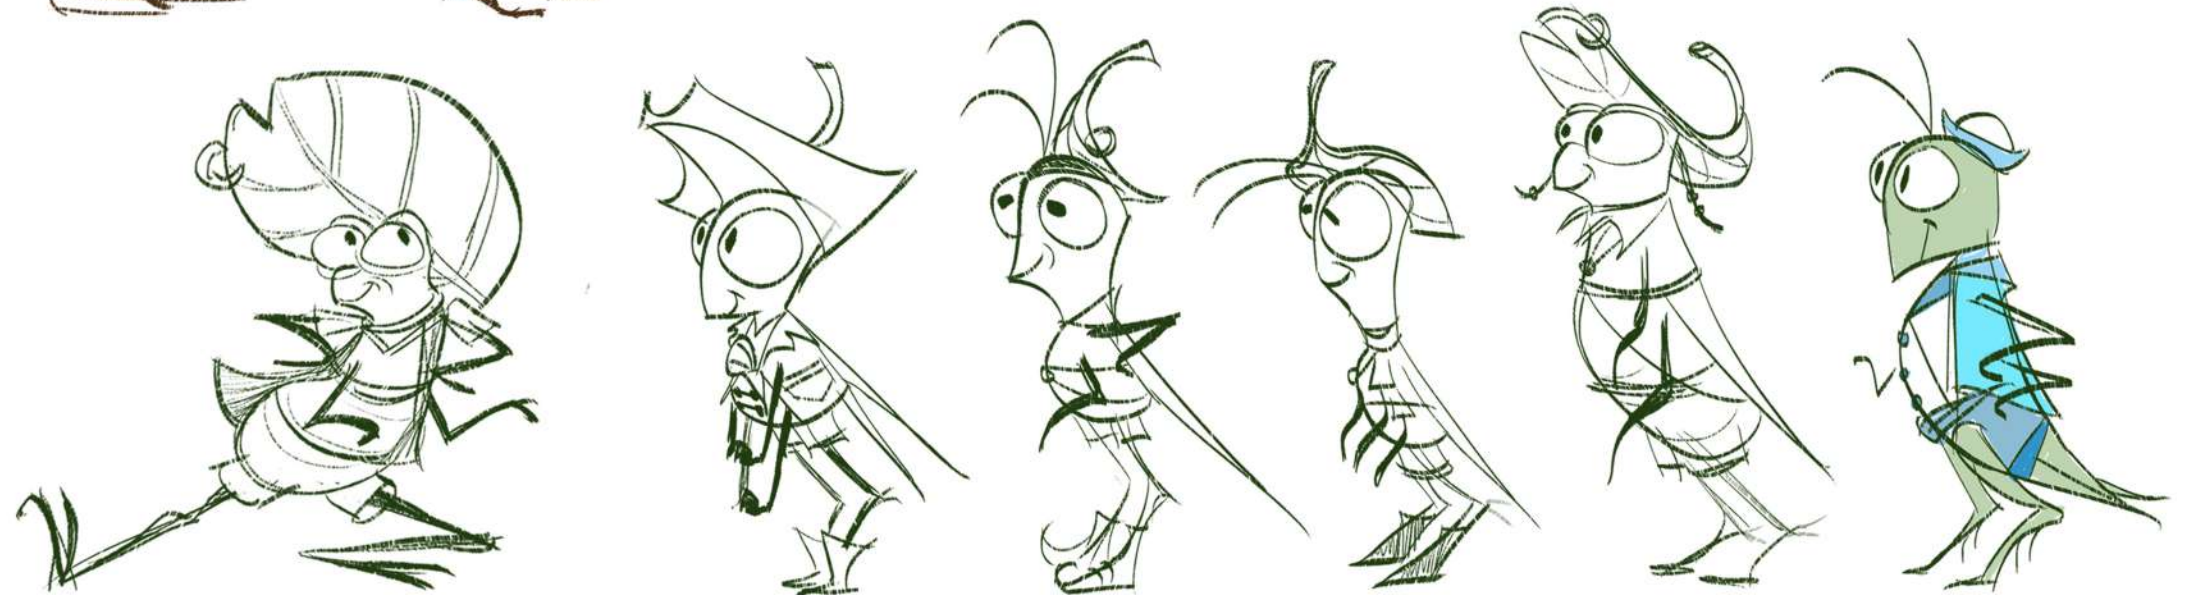

Sweet and jolly with incredible cooking skills, the Chef is often taken for granted by the rest of the crew.

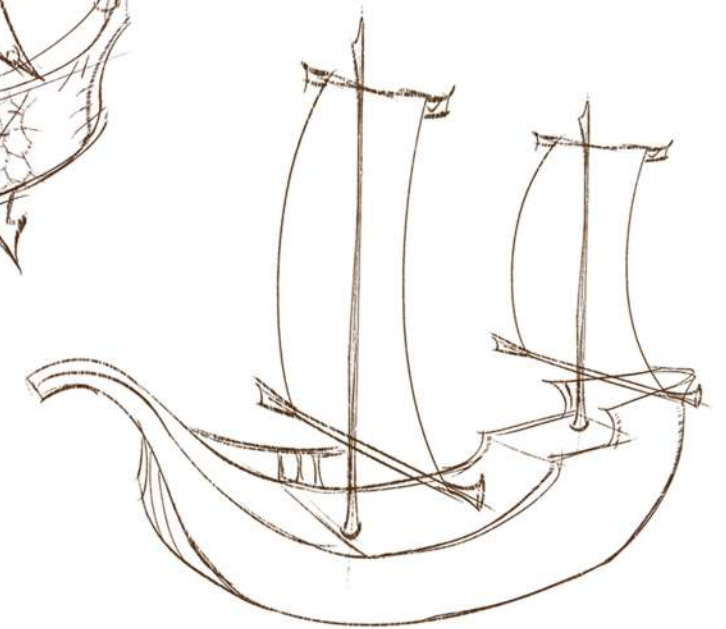

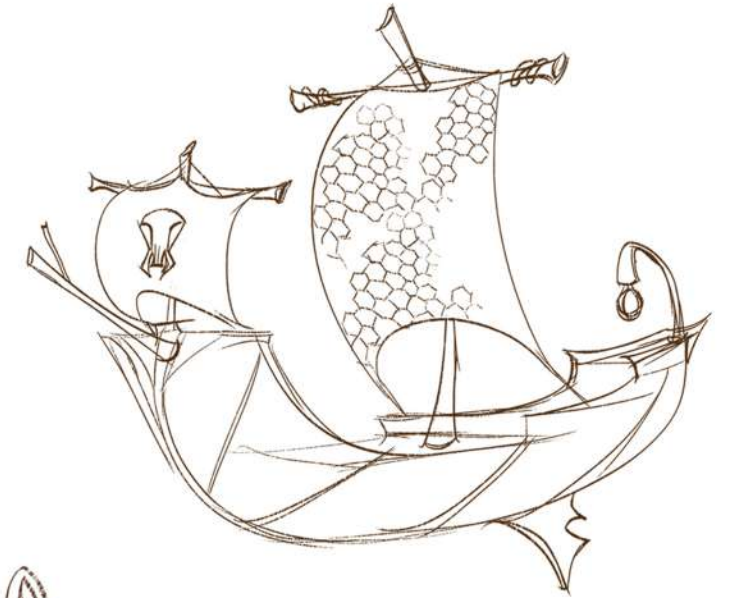

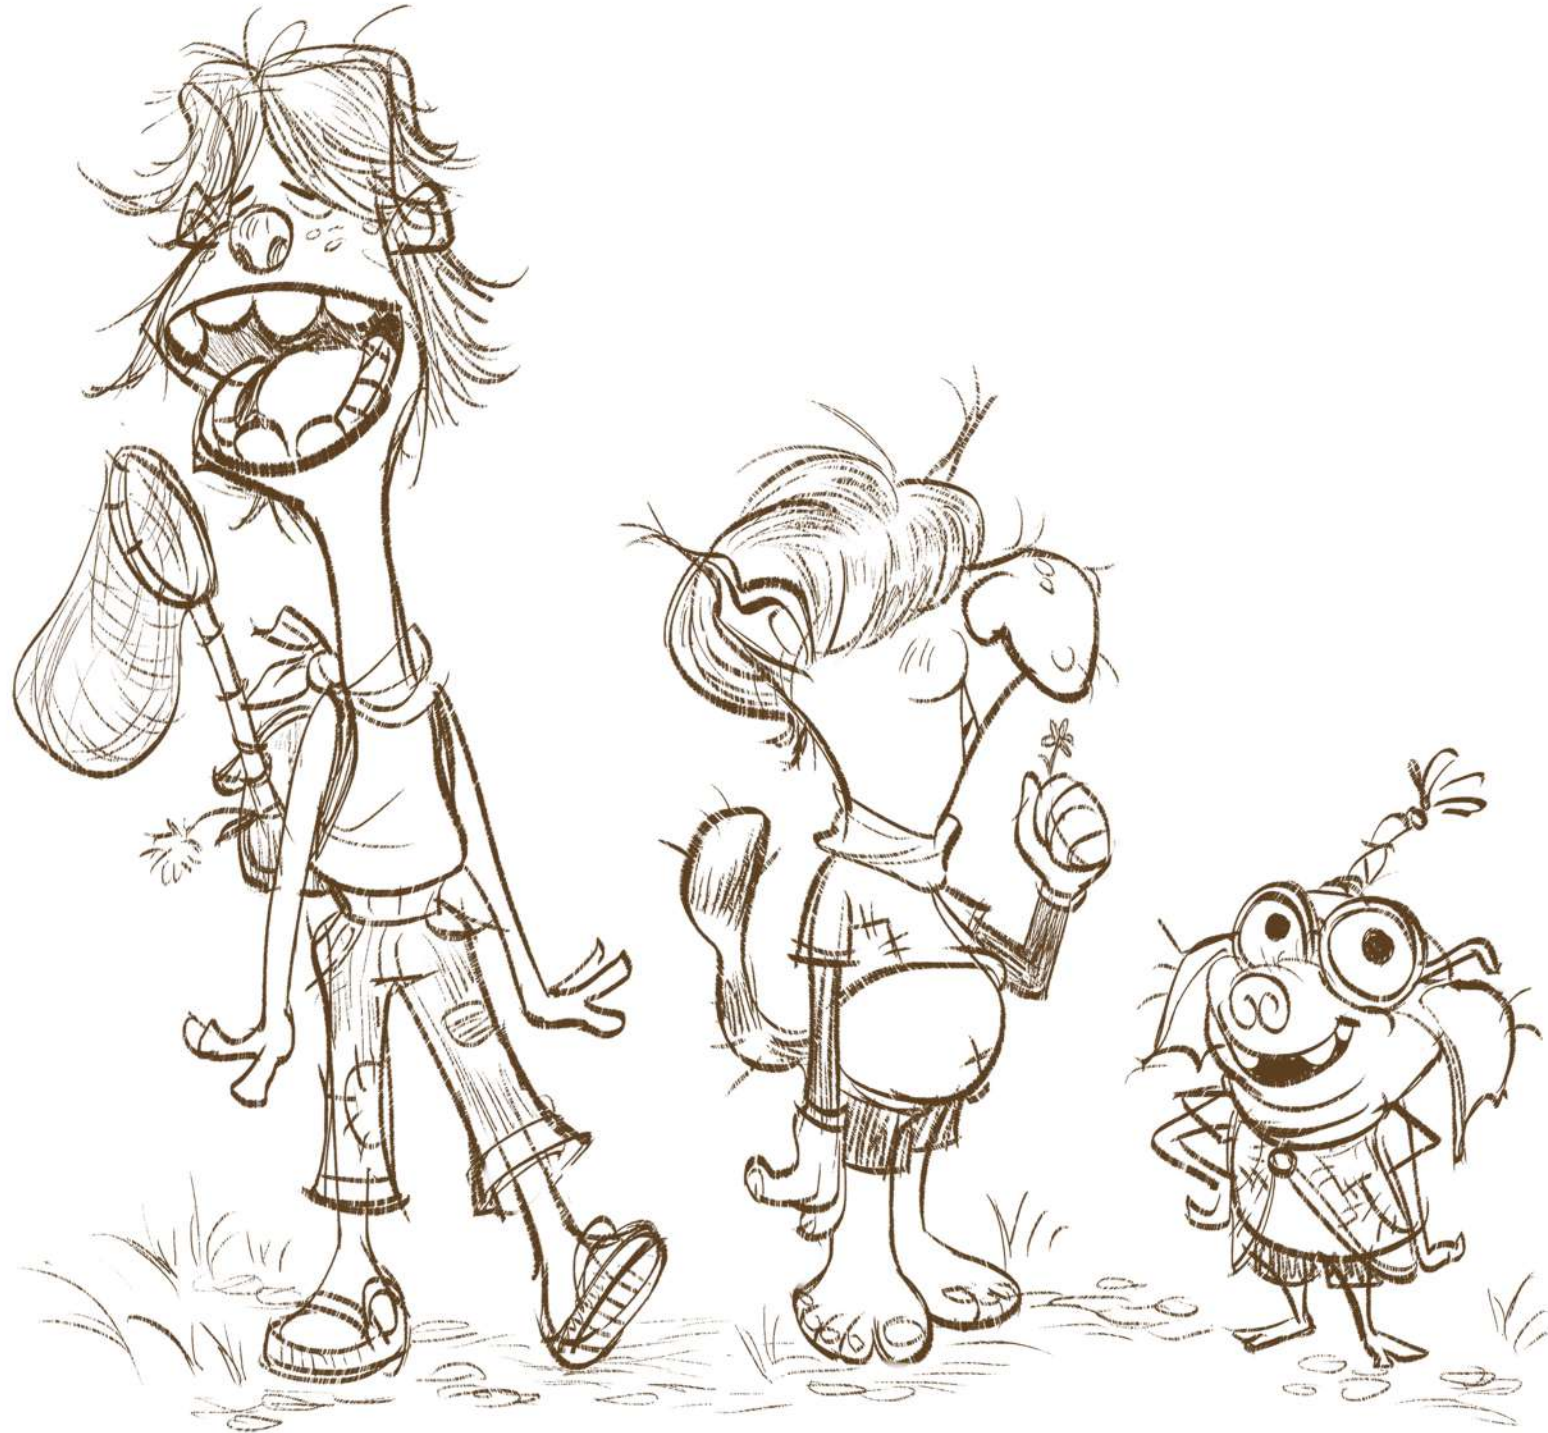

Other insects have created their own crews too! Here are some exploratory sketches of what they might look like.

No pirate crew is complete without
it's ship, and the same rings true
for the bees.

THANK YOU!
