This way, he's able to "model" cannon balls slime from the secretion of his hat, so fire balls, ice balls, stone balls and so on.

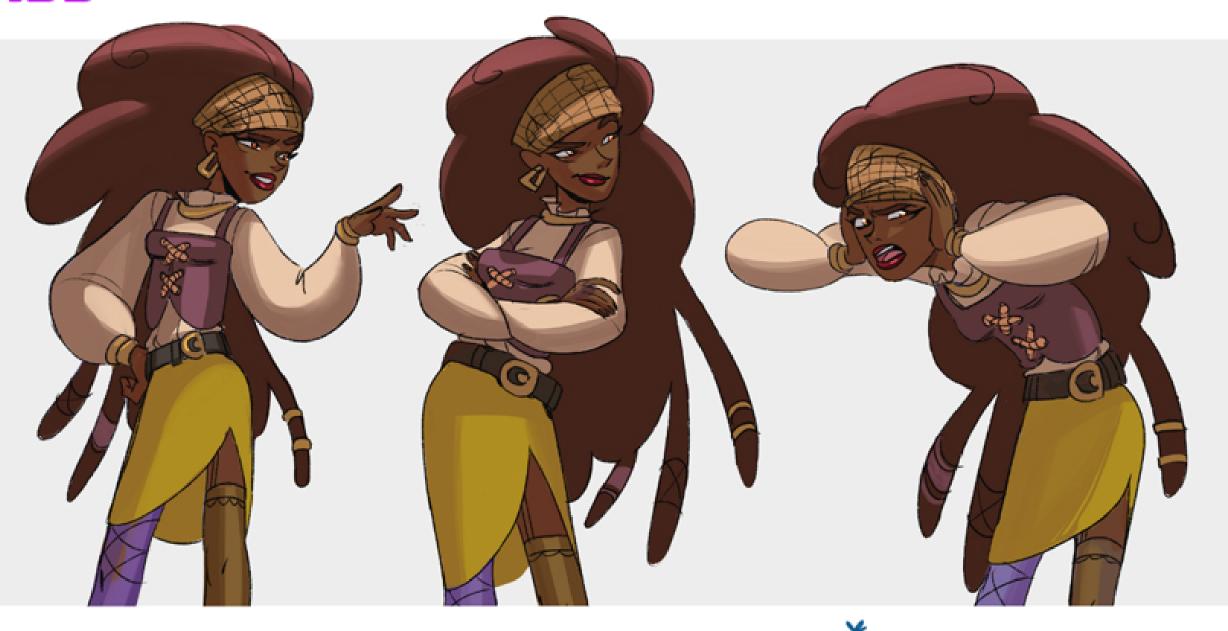

## **JENNY GOLDEN COMPASS**

She's the cartographer in Slyme's crew.

With her maps, players can orient themselves in the island and go back looking for more resources.

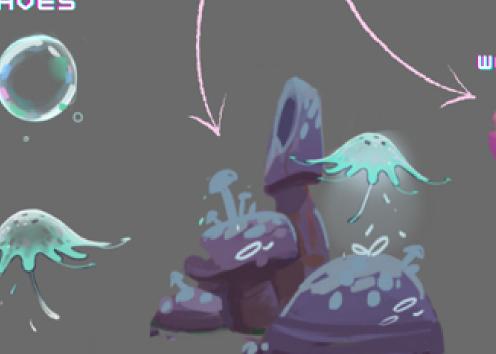

## PROPS\_MISC

Many kind of mushrooms can be found in the same level and used together to combine the effects.

## MECHANICS

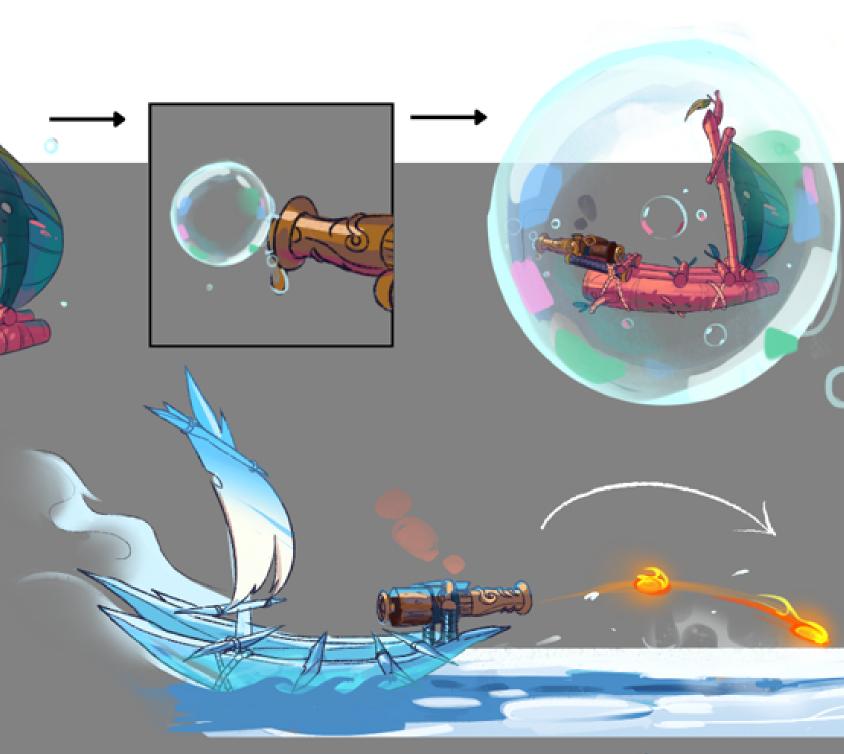

In the Windy
Caves, powerful
geysers are
costantly
blowing
upwards.

Loading the raft with stone slimes will be the key to proceed without touching the ceiling surrounded by poisoned roots

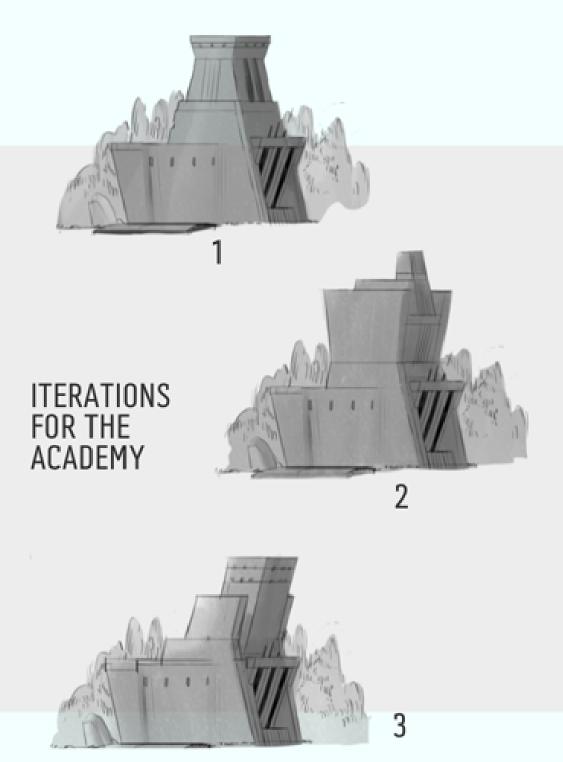

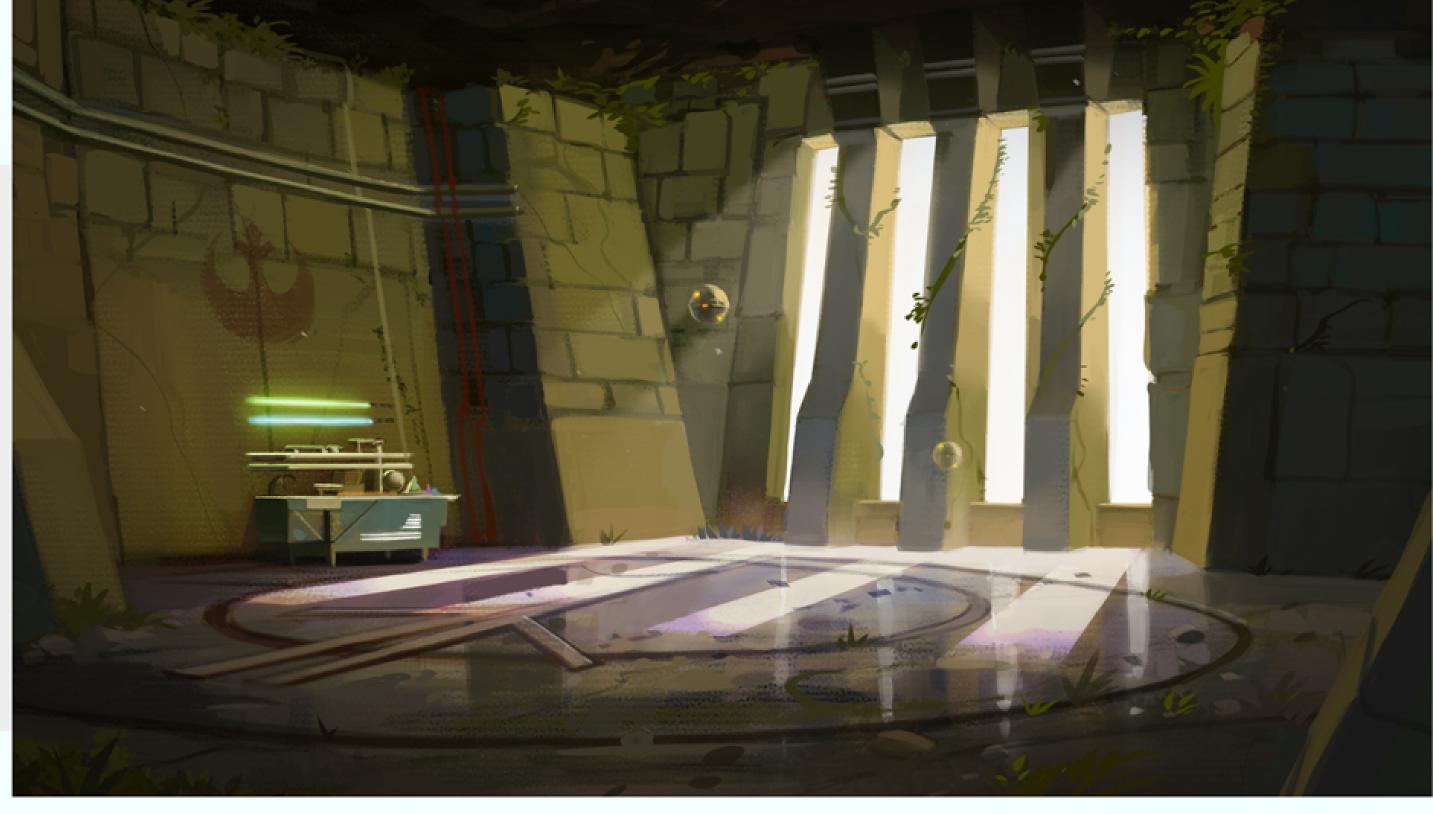

In The Frozen Sloop, the raft is equiped with fire balls to melt the ice and create a path.
